

## **Global Director of Diagnostics and Imaging**

### **Strategic Leadership Profile**

The Global Director of Diagnostics and Imaging serves as the executive leader responsible for the strategic oversight, development, and operational integration of diagnostic and imaging services across Wings CRS global operations. This leader ensures that advanced diagnostic capabilities support rapid medical assessment, clinical decision-making, and life-saving interventions during catastrophe response missions.

While we value experience, we value ATTITUDE more. We seek servant-leaders who are intuitive, emotionally secure, confident self-starters, out-of-the-box thinkers, supportive team players, and capable problem solvers — not problem creators. Above all, this individual is deeply committed to saving lives and building resilient communities.

In this executive capacity, you will architect and govern a globally scalable diagnostics and imaging framework that integrates radiology, laboratory diagnostics, and point-of-care testing into field medical operations, mobile clinics, and permanent healthcare facilities.

This position carries strategic accountability for ensuring accurate diagnostic capability, advancing medical technology adoption, and strengthening clinical readiness across the organization's medical response infrastructure.

### **Core Responsibilities**

Develop and implement a global diagnostics and imaging strategy supporting disaster medicine and clinical operations.

Oversee radiology, imaging systems, laboratory diagnostics, and point-of-care testing capabilities.

Establish clinical protocols for diagnostic imaging and laboratory testing during disaster response operations.

Ensure compliance with regulatory standards for diagnostic services, imaging equipment, and laboratory practices.

Coordinate integration of diagnostic technologies within mobile medical units and field hospitals.

Oversee procurement, maintenance, and lifecycle management of imaging and diagnostic equipment.

Recruit and supervise regional managers and specialists responsible for diagnostics and imaging services.

Collaborate with medical, logistics, and technology teams to ensure diagnostic readiness during deployments.

Develop quality assurance programs and performance metrics for diagnostic accuracy and service reliability.

Provide executive briefings regarding diagnostic readiness, technology advancements, and operational risk.

### **Required Qualifications**

Medical Doctor (MD/DO), Doctor of Radiology, Doctor of Clinical Laboratory Science, or related advanced clinical degree.

Board certification in Radiology, Pathology, Laboratory Medicine, or relevant specialty preferred.

Minimum 10 years of leadership experience in diagnostic imaging, laboratory medicine, or clinical diagnostics.

Experience overseeing diagnostic operations across hospitals, mobile medical units, or complex healthcare systems.

Strong knowledge of imaging technologies, laboratory systems, and diagnostic regulatory compliance.

Demonstrated leadership managing multidisciplinary clinical and technical teams.

Hiring location: Boerne, Texas

## **Compensation & Benefits**

Please see our Recruiting page on our website for the complete and current list of benefits and compensation details.

If you are looking for your best last job — where your work makes a real difference and directly contributes to saving lives — please send your resume to us today for consideration. Military veterans are strongly encouraged to apply.

Wings CRS is an Equal Employment Opportunity (EEOC) employer.

Wings CRS is fully committed to promoting wellness and creating both a healthy and safe environment for all employees, volunteers, patients, and visitors.

Wings CRS maintains a LIMITED TOBACCO PRODUCT USE policy. The organization will not hire individuals who use or test positive for nicotine products unless such use is under the documented guidance and supervision of a licensed physician as part of an approved medical treatment or cessation program. Candidates who desire to cease the use of nicotine products as a condition of employment must agree to successfully complete a nicotine cessation program under the guidance and monitoring of Wings CRS health professionals.

All candidates must undergo an extensive evaluation process, including thorough background checks and drug, alcohol, and nicotine testing as a precondition of employment. All employees are subject to random substance testing as a condition of continued employment.
