

## **Global Director of Public Health & Training Standards**

### **Strategic Leadership Profile**

The Global Director of Public Health & Training Standards serves as the executive leader responsible for establishing global public health strategy, clinical training doctrine, and professional competency standards across Wings CRS operations. This leader ensures that medical personnel, responders, and field teams maintain the knowledge, skills, and preparedness required to operate effectively during catastrophe response missions.

While we value experience, we value ATTITUDE more. We seek servant-leaders who are intuitive, emotionally secure, confident self-starters, out-of-the-box thinkers, supportive team players, and capable problem solvers — not problem creators. Above all, this individual is deeply committed to saving lives and building resilient communities.

In this executive capacity, you will architect and govern a globally scalable public health and medical training framework that integrates disease surveillance, preventative health strategy, responder education, and certification standards into operational planning.

This position carries strategic accountability for protecting community health, strengthening workforce competency, and ensuring the highest professional standards for all medical and public health personnel across the organization.

### **Core Responsibilities**

Develop and implement global public health strategies supporting disaster preparedness and response operations.

Establish standardized medical and public health training programs for deployable personnel.

Design certification standards, competency frameworks, and continuing education programs.

Lead disease surveillance, outbreak monitoring, and public health risk mitigation strategies.

Develop curriculum for field medicine, disaster medicine, and emergency response training programs.

Ensure compliance with global public health regulations, training standards, and medical guidelines.

Coordinate training exercises and simulation programs for catastrophe response readiness.

Collaborate with medical leadership, logistics, and operations teams to integrate public health readiness into mission planning.

Track training performance metrics, certification compliance, and workforce competency benchmarks.

Provide executive briefings on public health trends, training effectiveness, and operational readiness.

### **Required Qualifications**

Doctorate or Master's degree in Public Health (MPH, DrPH), Medicine (MD/DO), Epidemiology, or related field.

Minimum 10 years of leadership experience in public health, medical training, or disaster medicine.

Experience developing large-scale training programs, certification standards, or academic curriculum.

Strong knowledge of epidemiology, global health systems, and disaster preparedness.

Experience managing multidisciplinary teams and public health initiatives.

Demonstrated leadership guiding education, training, or professional standards within healthcare organizations.

Hiring location: Boerne, Texas

### **Compensation & Benefits**

Please see our Recruiting page on our website for the complete and current list of benefits and compensation details.

If you are looking for your best last job — where your work makes a real difference and directly contributes to saving lives — please send your resume to us today for consideration. Military veterans are strongly encouraged to apply.

Wings CRS is an Equal Employment Opportunity (EEOC) employer.

Wings CRS is fully committed to promoting wellness and creating both a healthy and safe environment for all employees, volunteers, patients, and visitors.

Wings CRS maintains a LIMITED TOBACCO PRODUCT USE policy. The organization will not hire individuals who use or test positive for nicotine products unless such use is under the documented guidance and supervision of a licensed physician as part of an approved medical treatment or cessation program. Candidates who desire to cease the use of nicotine products as a condition of employment must agree to successfully complete a nicotine cessation program under the guidance and monitoring of Wings CRS health professionals.

All candidates must undergo an extensive evaluation process, including thorough background checks and drug, alcohol, and nicotine testing as a precondition of employment. All employees are subject to random substance testing as a condition of continued employment.
