

Imaging Technologist (CT, MRI, Ultrasound)

Strategic Leadership Profile

The Imaging Technologist serves as a specialized healthcare professional responsible for performing diagnostic imaging procedures including Computed Tomography (CT), Magnetic Resonance Imaging (MRI), and Ultrasound within Wings CRS healthcare facilities and operational response environments. This role supports accurate medical diagnosis and treatment planning by producing high-quality diagnostic images.

We value experience, but we value ATTITUDE more. We seek servant-leaders who are intuitive, emotionally secure, confident self-starters, innovative thinkers, supportive team players, and capable problem solvers — not problem creators. Above all, this individual is deeply committed to supporting lifesaving medical services and strengthening resilient communities.

In this clinical technical role, you will operate advanced imaging equipment, assist physicians with diagnostic imaging procedures, and ensure patient safety during imaging examinations.

This position carries responsibility for maintaining imaging quality standards, ensuring equipment safety, and supporting integrated medical operations during routine care delivery and catastrophe response missions.

Core Responsibilities

Perform diagnostic imaging procedures including CT scans, MRI scans, and ultrasound examinations.

Prepare patients for imaging procedures and explain examination processes.

Operate imaging equipment safely and efficiently.

Ensure image quality and accuracy for physician interpretation.

Maintain imaging equipment and report maintenance needs.

Follow radiation safety protocols and patient protection standards.

Maintain accurate imaging records and patient documentation.

Collaborate with physicians, nurses, and other healthcare professionals.

Ensure compliance with clinical standards and healthcare regulations.

Participate in disaster response deployments when diagnostic imaging support is required.

Required Qualifications

Associate or Bachelor's degree in Radiologic Technology, Medical Imaging, or related field.

Certification by the American Registry of Radiologic Technologists (ARRT) or equivalent credential.

Specialized certification in CT, MRI, or Diagnostic Medical Sonography preferred.

Active state licensure where applicable.

Minimum 2–4 years of diagnostic imaging experience preferred.

Strong technical skills and attention to imaging accuracy and patient safety.

Hiring location: Boerne, Texas

Compensation & Benefits
